

## EXCESS FLOOD QUESTIONNAIRE

Wording as per NFIP underlying Policy

- 1 Who was the previous carrier and what was the rate charged?
- 2 Is the building/contents insured under the NFIP primary policy?
- 3 Is the building post FIRM ....., pre FIRM construction.....  
What are the associated elevations?  
What is the NFIP zone?
- 4 What is the construction type and date of construction?
- 5 Is the building on pilings? i.e. the first floor is above ground  
What are the piling type?  
Are they driven into the ground or resting on a slab base?
- 6 Does the gap below the first floors have walls?  
Are these "breakaway" designed in event of flood/storm surge:
- 7 If the building is not on pilings, what are the foundations made of?
- 8 Does the building have a basement/cellar? – Equipment/Contents generators etc
- 9 What is the buildings distance from ocean?
- 10 What is the buildings lowest floor elevation above mean sea level? (NGVD)
- 11 What is the base flood elevation?
- 12 Previous flood loss record
- 13 Please supply a current NFIP elevation certificate
